

May 7, 2024

Mr. President Donald J. Trump,

Who can deny that you fly like an eagle in the face of smear campaigns and legal ambushes in the Swamp courts? You, President Donald Trump, have risen above storms and from the top you envision the electoral process that, with God willing, will land its swift flight on November 5, thus fulfilling the prophecy of Pastor Kim Clement in 2007.

In his first presidency, you President was subjected to political fire. His mandate never featured a Honeymoon from the Democrats' Swamp. However, his government was a prodigy in achievements, fulfilling his electoral promise in an integral way, such as the song: "My Way. End More: Much More, Than This." But, when it hit very powerful interests, in the style of "**I Did It My Way**", the Global Swamp, as you call it, President, planned and organized electoral fraud in the last election in some States of the Union, also using criminal the Chinese COVID 19 as an alibi and excuse to impose fraud.

In Venezuela, Colombia Nicaragua, Brazil; Spain, among others, we know how "**The copper of electoral fraud is beaten.**" They use two-way electronic machines, they suspend the voting information at a certain time and when they resume it, in the case of Trump, Bolsonaro in Brazil and others, they are placed in the position of loser.

Aware of the electoral fraud against the people of the United States, we, as a Hispanic force, carried out four caravans during that month. We remember how the Mayameros joined the protests by playing bugles and chanting his name from their homes and buildings. One of those protest leaders was the Christian, actor, and journalist Carlos Garín who belongs to the Maga movement and America First. "To Think I Did All That", because the Republican Rinos hid, at that important hour for the United States, and took refuge in the argument that there was no evidence of this grotesque fraud. Precisely, that is one of the characteristics of electronic fraud that is not easy to detect traces: "**For Was Is a Man, What Has He Get**".

Carlos Garin is known by Senator Rick Scott. Garín has several special gifts as a Candidate and one of them is that he is also accessible to citizens like Senator Scott. Given these virtues, our organization Hispanics for America has proposed him to represent us as Mayor in Miami Dade County. He has created a compelling program to take back Miami Dade County, based first on God, family, education, supporting seniors, ensuring security, transportation, the airport.

Without further ado, we say goodbye, informing you that you and your family are present in our prayers so that you are exonerated from those false charges that your swamp enemies assign to you. We are very sure that God is with you and with America. God Bless you eternally.

Atte.,
